

## Enhancements to Sam – March 2015

### New OV Practice Work Basket Functionality

From today OV Practice staff will see some differences in their Sam work basket.

Three new columns have been added to support the forthcoming management of work by Delivery Partners in England and Wales.

**Work Area** To differentiate between instructions for TB tests in bovines and other veterinary services such as Anthrax Investigations.

**Delivery Partner** To identify from which Delivery Partner work has been allocated.

**Allocation Date** To allow you to establish on what date work was allocated to the Practice either by APHA or a Delivery Partner.

The Allocation Date column will be populated for all newly allocated work from 22<sup>nd</sup> March. Work without an Allocation Date can be sorted to establish date order by clicking on the WSA column header, the most recently allocated work having the highest WSA number.

Earliest Start	Due by	Test Arr	Work Area	Test Type	Spec Ins	Herd Type	Anmls	WSA	Delivery Part	Alloc Date
20-May-15	20-Jul-15		TB	WHT		Beef	2	4968846		22-Mar-15
23-Mar-15	07-May-15		TB	TR		Beef	19	4967242		
17-May-15	17-Jul-15		TB	WHT		Beef	8	4962752
