

Tuberculin Test Chart

Herd Reference Number

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Sheet of

THIS FORM IS ALSO AVAILABLE IN WELSH

Notes:

- The number of animals not tested must be entered at question 5(b) of Form TN52B
- The correct date of birth or age of each animal should be shown separately. This is particularly important for reactor and IR animals.
- Where added animals and inconclusive reactors are tested at this test they must be clearly identified in the Remarks column. It should also be stated whether they are in isolation.

Abbreviations: S.O. = Some oedema, C. = Circumscribed, + = Positive, - = Negative

No. of animals tested on this page: <input type="text"/> Signature: <input type="text"/> Date test commenced: <input type="text"/>	Stamp
